APHRODISIAC  
&  
PHEROMONE  
*infused*

DONA by JO is an Aphrodisiac & Pheromone infused collection for women with products to entice, pamper and play.

To enhance desire, DONA products are infused with natural ingredients called aphrodisiacs. Found in certain foods and plants, aphrodisiacs have been used to stimulate passion since ancient times. Aphrodisiacs stir the libido, heighten arousal and intensify pleasure – your own and your lover’s!

Pheromones: the body’s seductive secret weapon. Pheromones are the natural chemicals we produce to appear attractive and irresistible. Odorless but powerful, everyone releases pheromones and subconsciously reacts to the pheromones released by others. DONA products are infused with safe, synthetic pheromones to boost your desirability in any situation.

It's the smoldering gaze that leaves you both breathless. The sly Mona Lisa smile. The slender finger tracing slow circles in their clothes. It makes their heart pound, their knees weak, while your own body surges with power and confidence. Go on. Bite your lip. Close your eyes just a little. Watch them become yours.
